

QA Intern – Technical Assessment

Objective

This assessment is designed to evaluate your understanding of software testing concepts, analytical thinking, attention to detail, and documentation skills.

Role: QA Intern

Duration: 2 Days

Website to Test

Demo Website: <https://opensource-demo.orangehrmlive.com/>

Perform comprehensive testing on the website and document all your findings.

Test Credentials (if required):

- **Username:** Admin
 - **Password:** admin123
-

Task 1: Manual Testing

Perform end-to-end testing of the following modules:

- Login
- Forgot Password
- Dashboard
- PIM (Employee Management)
- Leave Management
- Time
- Recruitment
- My Info
- Performance
- Directory

- Maintenance (if accessible)
- Buzz
- User Profile
- Logout

Test all major functionalities using both **positive** and **negative** test scenarios.

Task 2: Test Case Creation

Create a minimum of **30 detailed test cases** covering different modules of the website.

Include:

- Positive Test Cases
- Negative Test Cases
- Boundary Value Testing
- Input Validation Testing
- UI Validation
- Functional Testing

Your test cases should be clear, structured, and easy to execute.

Task 3: Bug Reporting

Identify all bugs, inconsistencies, UI issues, or validation issues you encounter.

For each bug, provide:

- Bug ID
- Module
- Bug Title
- Description
- Steps to Reproduce
- Expected Result
- Actual Result
- Severity
- Priority
- Environment (Browser & OS)

- Screenshot
 - Status
-

Task 4: Exploratory Testing

Spend at least **30 minutes** exploring the website beyond the assigned modules.

Document:

- UI/UX issues
 - Functional issues
 - Missing validations
 - Broken links
 - Improvement suggestions
 - Any unexpected behavior
-

Task 5: SQL Assessment (Basic)

Assume the following table:

Employees

- EmployeeID
- Name
- Department
- Salary

Write SQL queries to:

1. Fetch all employee records.
 2. Find employees with a salary greater than 50,000.
 3. Count the total number of employees.
 4. Display the highest salary.
 5. Find all employees from the QA department.
 6. Sort employees by salary in descending order.
 7. Display the top 3 highest-paid employees.
-

Task 6: API Testing (Bonus)

Using **Postman**, test the following API:

GET: <https://jsonplaceholder.typicode.com/posts>

Verify:

- Status Code
- Response Time
- Response Body
- Response Headers

Document your observations and include screenshots if necessary.

Task 7: Test Summary Report

Prepare a summary report including:

- Total Test Cases Created
 - Total Test Cases Executed
 - Passed Test Cases
 - Failed Test Cases
 - Blocked Test Cases (if any)
 - Total Bugs Identified
 - Critical Bugs
 - Major Bugs
 - Minor Bugs
 - Suggestions for Improvement
 - Overall Testing Summary
-

Mandatory Excel Sheet Format

Your Excel workbook should contain the following sheets:

Sheet 1 – Test Cases

- Test Case ID
 - Module
 - Test Scenario
 - Preconditions
 - Test Steps
 - Test Data
 - Expected Result
 - Actual Result
 - Status (Pass/Fail)
 - Priority
 - Severity
 - Remarks
-

Sheet 2 – Bug Report

- Bug ID
 - Module
 - Bug Title
 - Description
 - Steps to Reproduce
 - Expected Result
 - Actual Result
 - Severity
 - Priority
 - Environment (Browser/OS)
 - Screenshot Link
 - Status
-

Sheet 3 – Exploratory Testing

- Area Tested
 - Observation
 - Issue Found
 - Severity
 - Suggestion
-

Sheet 4 – Test Summary

Metric	Value
Total Test Cases Created	
Total Test Cases Executed	
Passed	
Failed	
Blocked	
Total Bugs Found	
Critical Bugs	
Major Bugs	
Minor Bugs	
Suggestions	

Submission Requirements

Submit a ZIP folder containing:

- **QA_Test_Assessment.xlsx** (including all required sheets)
 - **SQL Assessment (PDF/DOCX)**
 - **Postman Collection (Optional)**
 - **Screenshots of Bugs**
 - **README file (Optional)** containing any additional observations
-

Evaluation Criteria

Your assessment will be evaluated based on:

- Test case quality and coverage
- Bug identification and reporting
- Documentation quality
- Analytical and problem-solving skills

- Attention to detail
 - Understanding of QA fundamentals
 - Overall presentation and organization
-

Submission Deadline

Please submit your completed assessment within **2 days** of receiving this task.

Good luck! We look forward to reviewing your submission.
